

## “MODNOC” RPM Covers

Note: White for illustration purposes – actual cover is “clear”.

<b>DESCRIPTION</b>	Robust clear plastic moulded to fit over a RPM 100mm by 100mm with preapplied 50mm by 50mm double-sided tape ready to install.
<b>USES</b>	An easy and cost effective method of covering existing raised pavement markers when light reseals and emulsion seals would destroy existing raised pavement markers. When the sealing operation is complete, simply remove the “MODNOC” to reveal the existing raised pavement marker.
<b>SURFACE PREPARATION</b>	No special preparation. Ensure old marker is free of dirt and moisture especially on the top of the marker.
<b>APPLICATION</b>	Application is simple and time efficient. Apply appropriate traffic control procedures. Locate the existing raised pavement marker. Turn “MODNOC” upside down. Remove release paper. Press “MODNOC” onto RPM. Apply sufficient pressure by hand or foot to ensure cover is firmly adhered to RPM.
<b>REMOVAL</b>	Apply appropriate traffic control procedures. Remove the cover intact and dispose of used cover in appropriate method.
<b>PACKAGING</b>	“MODNOC” Covers are packed in boxes of 1000. Any quantity supplied. Weight 10kgs. Box size 38x28x45cm.
